

We're looking for a Field Operations Officer for our Samos Team.

Are you looking to make the world a better place?

Do you want to make some real impact and join a team of highly motivated and dedicated people with a true joint ambition? You've found your match!

The Movement

Movement on the Ground is a foundation that started on Lesbos, Greece in 2015 in response to the humanitarian crisis affecting the innocent men, women, and children forced from their homes due to war, poverty and climate change. Our initial aim was to fill the gaps in humanitarian aid provided at the time – which we are still doing – but now, we have come to the conclusion that the so called “system gap” is solvable, and this is something we are working on together with both the Greek and Dutch governments. We are very proud to now provide relief in refugee camps on Lesbos, Samos and Chios, as well as support unaccompanied refugee minors in Athens at our unaccompanied minor shelters. The projects that we run in these camps and shelters are designed to bring dignity, sustainable and innovative solutions.

A little about the team

We are a bunch of like-minded, out-of-the-box thinking, hands-on entrepreneurs from all corners of the world, who are constantly challenging the status quo. We come served with a side of humility and we are always looking into ways to build bridges between all the stakeholders involved in the European migration situation. We all have the same goal, to spread our vision of making the world a better place.

Nothing is impossible for us; this is how we act, how we think and how we work.

Why do you want to join us?

In order to operate as an organisation, we need a great deal of freedom, a vibrant and inspiring work environment and an access to a large network that is directly involved in our mission. So, that's what you get if you work with us!

We are changing the status quo in the NGO world by empowering refugee camp residents by including them in all of our activities by utilising their skills so that they feel part of the solution and a part of a community as a whole. We bring innovative, sustainable solutions for a positive impact on the refugee crisis.

This means: steep learning curve | pushing forward mentality | getting things done!
