The Movement

Movement on the Ground, is a foundation which started in 2015 in response to the humanitarian crisis affecting the innocent men, women, and children, forced from their homes by war. The aim was to fill the gaps in humanitarian aid provided at the time, which we are still doing. In the meantime we have come to the conclusion that the so called “system gap” is solvable, and this is something we are working on together with both the Greek and Dutch governments. We are very proud that we have been able to expand our refugee activities in camps at the borders of Europe. All projects are designed to bring dignity, sustainable innovative solutions. For instance, we are responsible for about 70% of all camp activities in Kare Tepe, a camp for vulnerable cases, that is home to 1300 people. Our programs range from sports programs for kids, to a digital learning lab (computer facilities), installing and running WiFi, football programs with the FC Barca Foundation, running a clothing shop, a waste recycling program, through to installing solar energy to a whole camp and making it one of the first sustainable run camps for individual families, to name a few.

If this speaks to you and you are number smart, have an entrepreneurial and out of the box mindset, have absolute excellent fun(d)raising skills that can help bring our finances to the next level, read on.
